Dave,

Just a note to tell you, and the entire staff at Salt River, how much we are enjoying our new system. We received our first utility bill, and Trico Electric owes us money!! Never thought I'd be a supplier to the electric company. The Sun Power systems works great, and seeing system production on line every day is a great feature. From design through install, we couldn't be happier with the Salt River experience. Please pass along our thanks to all involved.

Dan Linegar
Tucson

PS, Please don't hesitate to have potential customers call to discuss our system. Happy to help others start to be utility vendors.
